

The #1 killer of teenagers doesn't have a trigger.
It has a steering wheel.

FOR BOTH STUDENTS AND THEIR PARENTS *

What Every Family Needs To Know About Teens and Driving

Wednesday, September 22, 2010, 6:30-8:00 p.m.
San Clemente High School Triton Center

Recommended Program for Freshman and Sophomore Students and Their Parents
to learn about SCHS's new driving guidelines.

- Hear about the SCHS ASB partnership with JourneySafe. Learn about the five part JourneySafe Pledge. Families will hear David Sabet discuss the dangers involved when inexperience is mixed with driver distraction.
- Ronn Langford, Founder, Driving Skills Institute, a non profit foundation established to conduct research on preparation and educational strategies for the young driver. He will give families the tools to maximize a teen driver's chances of surviving on today's busy streets and highways.
- Demystify the process of obtaining a license and understand all the requirements. You will receive handouts on the Driving Process.
- Driving program vendors will have materials and resources available.

The area of the human brain that controls multitasking, impulse control and the ability to envision consequences - areas crucial for driving - is still developing well into an individual's 20s .

Have the "Driving Talk." When parents and teens agree on driving restrictions and rules and the consequences of violating those rules, teens are less likely to take risks while driving.
